

SOUTH CAROLINA INTERAGENCY COUNCIL ON HOMELESSNESS

2018 PIT Count

This infographic presents a snapshot view of South Carolinians experiencing homelessness on a single night in January.

For year-round information on the number of persons experiencing homelessness in your area, please contact your local Continuum of Care

During the last week of January, volunteers from across South Carolina surveyed people who were experiencing unsheltered and sheltered homelessness to estimate how many persons in the state are experiencing homelessness on any given night.

On any given night in South Carolina the estimated number of persons experiencing homelessness is

3,933

This statistic is largely unchanged compared to last year's count of

3,916

Compared to last year, there are more persons in **2018** experiencing sheltered homelessness **(+174)** and fewer persons experiencing unsheltered homelessness **(-157)**.
