### A MESSAGE FROM THE CHAIR

The South Carolina Interagency Council on Homelessness' (SCICH) purpose is to build statewide, collaborative, working relationships with housing champions to reduce homelessness and support the creation of attainable and affordable housing in SC. I am proud to serve with a variety of dedicated professionals and passionate advocates from across our state to make our vision a reality: A SC where all citizens are stably housed.

Thank you for taking time to access the 2025 SC State of Homelessness Report. This annual report has been a product of the council for over five years, and we are proud to make it available once again.

You will find many key data points in this report. They come directly from agencies' currently published data or data pulled directly from their systems and provided to SCICH. Each section of this report provides demographic data, details on the populations experiencing homelessness, and data on the major issues and barriers that often prevent the opportunity for stable housing. Our goal for this report is to inform and fuel urgency in finding solutions to end homelessness and housing insecurity in our state.

On May 16, 2023, Governor Henry McMaster signed Senate Bill 342 into law. This legislation redefined homeless and unaccompanied youth in our state as birth to the age of twenty-four. Having this definition in place makes it easier for service providers to determine who qualifies for potential federal aid and helps organizations plan to effectively serve these youth. This legislation opened the door for SCICH to receive a planning grant from the SC Department of Social Services to develop a plan to conduct a youth homeless count. The campaign is called SC Young Voices Matter and is designed to help us discover the number of young adults, ages 13-24, living in SC without a safe and stable place to sleep at night. The goal of the Campaign is to understand the resources and support needed to help these young people find a safe, permanent place to call home. SCICH is excited to conduct this count in the coming year and be able to add that data to our annual report in 2026.

If you are reading or referencing this report, you have a vested interest in SCICH's vision as well. Thank you for your support of SCICH and for your role to address homelessness and housing insecurity in SC.

Respectfully, Suzanne H, Sanders, MPH, MCHES SCICH Chair

# Acknowledgements & Special Thanks

In appreciation to all the SCICH Board of Directors who are dedicated to ending housing insecurity and homelessness in SC.

#### SCICH would like to thank the contributors who made this report possible.

- Ana Garcia, SC Housing
- Stephany Melton, South Carolina Department of Behavioral Health and Developmental Disabilities, Office of Mental Health
- Jesus Caldera, United Way Association of South Carolina
- Birley Wright, South Carolina Department of Education
- Kimberly Humphrey, South Carolina Department of Education
- Terre Odenthal, South Carolina Department of Corrections
- Michele Murff, South Carolina Department of Behavioral Health and Developmental Disabilities, Office of Mental Health
- Saskia Santos, PhD, South Carolina Department of Probation, Parole, and Pardon Services
- Renaye Long, SC Housing
- Clint Johnson, ECHO
- Brandi Ross, United Way of the Midlands
- Erin Epperson, United Way of the Midlands
- Alexis Spry, South Carolina Department of Veterans' Affairs.

# SCICH also wishes to thank the representatives from each of our state's Continuums of Care and Partner Agencies for their valuable input, including:

- South Carolina Department of Behavioral Health and Developmental Disabilities
- South Carolina Department of Corrections
- South Carolina Department of Education
- South Carolina Department of Health and Human Services
- South Carolina Department of Public Health
- South Carolina Department of Social Services
- South Carolina Department of Veterans' Affairs
- Lowcountry Continuum of Care
- Midlands Area Consortium for the Homeless (MACH)
- Total Care for the Homeless Coalition (TCHC)
- Upstate Continuum of Care

# The Housing Crisis in South Carolina

Data Sources: 2025 Out of Reach Report, National Low Income Housing Coalition; Civil Court Data Initiative, Legal Services Corporation; 2025 Priced Out: Housing Crisis for People with Disabilities, Technical Assistance Collaborative

Like many other states, South Carolina is experiencing an affordable housing crisis. While this report is specifically focused on homelessness, it is important to acknowledge the direct correlation between housing affordability and homelessness. As the included data illustrates, Fair Market Rents (FMRs) in SC are simply unaffordable for the average individual or family, which leaves thousands at risk of homelessness.

In order for a household to afford a twobedroom unit at FMR, they must earn approximately \$25.91 per hour while the average renter wage is \$17.76 per hour.

An individual making minimum wage must work 125 hours a week or 3.1 full-time jobs in order to afford a 1-bedroom unit at FMR.

An individual whose sole source of income is Supplemental Security Income (SSI) would need to pay 122% of their monthly income for a 1-bedroom unit.

One-bedroom FMR	\$1,183
Two-bedroom FMR	\$1,347
Rent affordable to an individual earning the average renter wage	\$932
Rent affordable to an individual earning 30% of the Area Median Income	\$688
Rent affordable to an individual earning minimum wage full-time	\$377
Rent affordable to an individual whose sole income is SSI	\$290

**Top 5 Most Expensive Counties** 

County	Hourly Wage Needed to Afford
York	<b>2-Bedroom FMR</b> \$35.08
Beaufort	\$35.04
Berkeley/Charleston/ Dorchester	\$35.00
Horry	\$27.04
Greenville/Pickens	\$25.12

#### **Top 5 Evictions Fillings by Jurisdiction**

County	Total Filings Since March 2020	Total Filings in June 2025*
Richland	79,173	1,628
Greenville	67,708	1,269
Spartanburg	45,308	1,015
Charleston	47,640	964
York	29,056	635

\*In June 2025, a total of 10,962 evictions were filed in SC.

## SC Continuums of Care

Each Continuum of Care is funded through a grant from the US Department of Housing and Urban Development (HUD), and as part of the grant process, each CoC determines the types and number of projects it offers.

A Continuum of Care (CoC) is a regional planning body that coordinates housing and services funding for families and individuals experiencing homelessness, which is reported in the Homeless Management Information System (HMIS). CoCs are also responsible for conducting and reporting annual Point in Time (PIT) counts of the population experiencing homelessness in their respective geographic areas.

# Homeless Management Information System (HMIS)

October 1, 2023 - September 30, 2024

The Homeless Management Information System (HMIS) is a statewide database used by homeless service providers to collect client-level data on housing and services offered to individuals and families experiencing homelessness in South Carolina. Data pulled from HMIS reports that 12,590 persons received homeless services. These persons represented 10,214 households.

**NOTE:** While HMIS is a widely used data tracking system for homeless services in SC, it only tracks the participants of agencies utilizing HMIS. Also, county specific data is currently not available.

Total Served	<b>12,590</b> Persons received homeless services
Gender Identity	<b>62%</b> Persons identified as male, while 37% identified as female
Race	<b>55%</b> Persons identified as black or African American, while 37% identified as White
Age	<b>19%</b> Children under 18 at program entry
Veteran Status	<b>1,812</b> Veterans were served
Adult Survivors of Domestic Violence	<b>1,416</b> Adults reported an experience of domestic violence

#### **Participant Demographics**

#### **Veteran Status**

Of the 10,245 adult program participants, 1,812 (17.7%) reported being a Veteran.

Veterans	Non- Veterans	Unidentified
1,812	8,193	238
17.7%	80.0%	2.3%

#### **Adults with Disabilities**

Condition Type	Persons Counted	Persons By %
Chronic Health Conditions	2153	21.0%
Developmental Disabilities	665	6.5%
HIV/AIDS	245	2.4%
*Mental Health Problem	6	0.1%
Physical Disability	2453	23.9%
Other	13	0.1%
None Identified	4672	45.6%
Alcohol Use Disorder	720	7.0%
Both Alcohol & Drug Use Disorder	990	9.7%
Drug Use Disorder	944	9.2%
Mental Health Disorder	3400	32.6%
Co-Occurring **SMI/SUD	462	4.5%

**NOTE:** Some numbers are duplicated due to persons reporting multiple conditions.

<sup>\*</sup>Mental Health Problem denotes some type of cognitive impairment.

<sup>\*\*</sup>SMI denotes Severe Mental Illness. SUD denotes Substance Use Disorder.

#### **Participant Demographics**

#### **Household Composition**

10,239 Households reported a homeless experience.

#### **Numbers of Persons per Household**

8,929

#### By Household Type

8,829 households are comprised of only adults.

#### Households with Children

#### **Households with Adults Only**

87.1%

#### **Participant Ages**

The average age at entry for all was 41 and the average age under 18 was 8.

2,345 (18.6%) of program participants are under the age of 18 years old.

55-64 is the largest population by age range at 2,222 (17.6%).

Children (0-17)	2,345 persons
Young Adults (18-34)	2,906 persons
Adults (35-54)	4,195 persons
Older Adults (55+)	3,147 persons

#### **Participant Experiences of Homelessness**

The following graphs provide a snapshot of the experience of homelessness by examining prior living arrangements before adult participants entered the program and how long adult participants had experienced homelessness (including number of episodes). The final table in this section compares the number of households experiencing chronic homelessness (persons with a disability and have a 12-month experience of homelessness, or a 4-episode homeless experience over 3 years), and those served who were not experiencing chronic homelessness.

#### Length of Time Homeless (Adults Only)

#### Prior Living Situation (Adults Only)

## Number of Homeless Episodes (Adults Only)

#### **Chronically Homeless Adults**

2025 SC State of Homelessness Report

# HMIS Participant Income

Approximately half (48.6%) of the adults in HMIS reported no income source during the year, while the majority of the remainder (48.2%) reported receiving income. For participants receiving monthly income during enrollment, the data illustrates an average of 15% increase in participant income for the year.

Adult Participant Monthly I	ncome Change
Average Income at Entry	\$1,087.52
Average Income at Exit	\$1,250.54
Average Change in Income	\$163.02

#### Top 5 Sources of Adult Participants' Monthly Income

NOTE: Some numbers are duplicated due to persons reporting multiple sources of income.

Income Sources	Persons (Count)	Persons (Percent)	Average Amount
Earned Income	1,598	32.4%	\$1,453.40
SSI	1,359	27.5%	\$846.81
SSDI	1,289	26.1%	\$1,025.20
Unidentified	870	17.6%	\$257.60
VA Service Connected Disability Compensation	552	11.2%	\$1,325.59

## Exit Destination of All Participants (Leavers Only)

While approximately half of the adults in HMIS reported receiving income, only 26.9% individuals exited to a permanent housing setting.

#### **Domestic Violence Experience**

#### **Adult Domestic Violence Survivors**

Of adult participants assisted by service providers utilizing HMIS, 14% reported having survived domestic violence.

Yes	No	Unidentified
1,416	8,298	529
13.8%	81.2%	5.2%

#### **Adults Fleeing Domestic Violence**

Of adult participants reporting having experienced domestic violence, 31% said they were currently fleeing a domestic violence situation.

Yes	No	Unidentified
442	864	110
31.2%	0.6	7.8%

#### When Domestic Violence Occurred

Of adult participants reporting having experienced domestic violence, 36% said the occurrence happened in the past 6 months.

<3 Months Ago	3-6 Months Ago	6-12 Months Ago	1+ Year Ago	Unidentified
367	136	165	659	87
25.9%	9.6%	11.7%	46.5%	6.1%

## **Point in Time Count**

Data Source: The HUD Exchange

The Point in Time (PIT) count is conducted annually across the United States by Continuums of Care organizations. Mandated by the Department of Housing and Urban Development (HUD), the PIT count is a one-night count conducted in January of each year and is meant to produce a snapshot of the number of persons experiencing homelessness, both sheltered and unsheltered, on a given night in America. Individuals who are experiencing homelessness are surveyed, but their participation is voluntary and self-reported.

One Night Count - January 24, 2024				
Total Number of Persons Experiencing Homelessness	<b>4,593</b> Counted on a Single Night in January			
Gender Identity	<b>Female Male Other</b> 1,666 2,908 19			
Race	White Black Multi-Race Other 2,063 2,212 190 128			
Age	Under 18-24       25-44       45-64       Over 64         18       527       339       1,609       1,740       362			
Veteran Status	<b>388</b> Veterans Experienced Homelessness			
Adult Survivors of Domestic Violence	<b>569</b> Adults Reported Surviving Domestic Violence			

NOTE: Data from the 2025 PIT Count is not yet available.

# **McKinney Vento**

2023 -2024 School Year Data Source: SC Department of Education

#### SC Children who are Experiencing Homelessness

While both the U.S. Department of Education and the U.S. Department of Housing and Urban Development (HUD) rely on the McKinney-Vento Homeless Assistance Act to determine eligibility for their programs and services, the way each agency defines homelessness differs based on the specific purpose and target population of their programs.

Both agencies agree on a core definition of homelessness that includes individuals who lack a fixed, regular, and adequate night-time residence. However, the U.S. Department of Education—through Subtitle VII-B of the McKinney-Vento Act, which governs the Education of Homeless Children and Youth (EHCY) program—uses a more expansive definition to ensure that children and youth facing housing instability are not overlooked.

Under this broader educational definition, homelessness includes not only individuals and families living in shelters, transitional housing, or in places not meant for human habitation (such as cars, parks, or abandoned buildings), but also those who are doubled up. The term "doubled up" refers to children and families who are temporarily living with relatives, friends, or others due to economic hardship, eviction, loss of housing, domestic violence, or other crises.

Additionally, families living in motels or campgrounds due to the lack of alternative accommodations are also considered homeless under this definition..

These forms of homelessness, though less visible than living on the streets, are just as disruptive to a child's wellbeing. Doubled-up living arrangements are frequently overcrowded and unpredictable. They too can disrupt children's education and create chronic stress that affects their mental and physical health. Unfortunately, because these situations are not always recognized under HUD's more restrictive definition, many families do not qualify for certain housing services, despite being highly vulnerable.

Recognizing and addressing these hidden forms of homelessness is essential. When systems and services fail to identify children and families who are doubled up or otherwise unstably housed, they miss a critical opportunity for early intervention and support. A clear and comprehensive understanding of who is experiencing homelessness—and who is at imminent risk is vital if we are to meet the shared goal of making homelessness rare, brief, and nonrecurring for all individuals, children, and families in our state.

# Youth Homelessness Demonstration Program (YHDP)

October 1, 2023 - September 30, 2024 Data Source: HMIS, provided by ECHO

#### **Participant Demographics**

YHDP is a HUD initiative that supports selected communities throughout the United States in the development and implementation of a coordinated community approach to preventing and ending youth homelessness. SC currently has two grantees, Eastern Carolina Housing Organization (ECHO) (Myrtle Beach) and One80 Place (Charleston). ECHO was awarded the grant as part of the FY 2021 cohort while One80 Place was awarded the grant as part of the FY 2023 cohort. Because One80 Place is a newer grantee, only ECHO's data was available for this report.

### 211 Calls

October 1, 2023 - September 30, 2024

Data Source: United Way Association of SC 211 Call Center

#### **Homeless Services Assistance**

United Way's 211 connects persons all across South Carolina to health, human, and social service organizations. Overall, homeless services and homeless prevention assistance accounted for 54% of the calls during fiscal year October 1, 2023 -September 30, 2024. Homelessness services referrals include connections to shelters, motel vouchers, and other services for people currently experiencing homelessness. Prevention Services refers to a wider range of services aimed at assisting people who may be at-risk of becoming homelessness, including financial assistance and legal support.

The need for rental and utilities assistance continues to be the two most requested services under the homeless prevention category, with 44.8% requesting assistance with utility bills and 45.7% requesting help with rental payments.

Under the Homeless Services category, 72.4% of the calls were requests for referrals to shelters and 32.2% of calls were requests for hotel/motel vouchers.

#### Calls for All Homeless **Services by CoC Region**

Peak months during the year for calls requesting homeless services were August, September, and July.

# **Projects for Assistance in Transition from Homelessness (PATH)**

September 1, 2023 - August 31, 2024 Data Source: SAMHSA 2024 PATH Annual Report

South Carolina's Projects for Assistance in Transition from Homelessness (PATH) program is funded by the Substance Abuse and Mental Health Services Administration (SAMHSA) and administered by the SC Department of Behavioral Health and Developmental Disabilities (SCDBDD), Office of Mental Health (OMH). PATH funds are used to provide outreach and clinical services to those experiencing homelessness who have mental illnesses or co-occurring mental illnesses and substance use disorders.

During the 2023 - 2024 program year, there were four PATH provider agencies in SC: Greater Greenville Mental Health Center, Greenville; Mental Illness Recovery Center, Inc. (MIRCI), Columbia; One80 Place, Charleston; and Waccamaw Center for Mental Health, Conway.

PATH provider agencies outreached to 1,369 individuals during the program year.

701 PATH-eligible Individuals were connected to mental health services and enrolled in the program. Of those enrolled in PATH, 42% were reported to be chronically homeless.

#### **Prior Living Situation** (Adults Only)

# Age of PATH-enrolled individuals

PATH-enrolled individuals identifying as having a cooccuring substance use disorder

#### Race and Ethnicity of PATHenrolled individuals

PATH-enrolled adults who identify as having experienced domestic violence

### **Veterans**

The US Department of Veterans Affairs provides several major housing programs to assist veterans at-risk for or experiencing homelessness, including the HUD-Veterans Affairs Supportive Housing Program (HUD-VASH), the Grant Per Diem (GPD), Healthcare for Homeless Veterans (HCHV) Programs, and the Veterans Justice Outreach (VJO) Program. This report includes statewide program data, which illustrates the amount of housing resources available to this vulnerable population.

Permanent Housing (Permanent Supportive Housing and Rapid Re-housing)	527 Beds

## **Justice Involvement**

July 1, 2023 - June 30, 2024

Data Source: SC Department of Corrections

Criminal records are a prevailing barrier for persons in need of housing at re-entry. Those without or estranged from family, and/or with no connections to supportive services or reentry programming have little hope of becoming or remaining permanently housed on their own. In this section, both the SC Department of Corrections (SCDC) and SC Department of Probation, Parole, and Pardon Services (SCDPPPS) provide data on their respective populations. While there is limited data available that illustrates these individuals' experiences with homelessness, the following data indicates that these populations are at significant risk for homelessness.

#### Releases from SCDC Base Population FY 2024

The data below illustrates that there is a portion of the population who are in the prison system for a short time, which presents a challenge to many communities who are already faced with limited resources and housing opportunities.

- 10.8% of the SCDC Base Population length of sentence is less than 3 years.
- 61.6% of SCDC inmates released in FY 2024 have served less than 2 years.

Number of Inmates Released by County in FY 2024				
Greenville	509 individuals	10%		
Spartanburg	488 individuals	9%		
York	452 individuals	9%		
Horry	273 individuals	5%		
Lexington	249 individuals	5%		

# **Justice Involvement**

July 1, 2024 - June 30, 2025

Data Source: SC Department of Probation, Parole & Pardon Services

As the data below illustrates, the majority of SCDPPPS's population are on probation and employed. Yet, as the third table indicates, a portion of the population have experienced homelessness during FY25.

<b>Offender Population Overview</b> (As of June 30, 2025)			
Probation	20,643	89%	
Parole	1,272	5%	
Community Supervision	986	4%	
Missing	329	4%	
Supervised Re-entry Program	329	1%	
Juveniles	20	0.1%	
Not Guilty by Reason of Insanity	1	0%	

Active Offender Employment	
Employed	58%
Unemployed	29%
Disabled	7%
Missing	4%
Retired/Student/ Homemaker	1%

Most of PPP offenders (79%) were not incarcerated at SCDC prior to their admission to PPP.

	Active Offenders Who are Experiencing Homelessness	
\	Number of individuals who were under supervision at some point during FY 2025, with an address type of homeless or shelter	1,574
$\bigg) \bigg)$	Percentage of individuals who were under supervision at some point during FY 2025, with an address type of homeless or shelter	3%
/	Number of individuals under supervision on August 7, 2025, with an address type of homeless or shelter	344
	Percentage of individuals under supervision on August 7, 2025, had an address type of homeless or shelter	1%
